Green Bin Tips

Paper plates and napkins
Kitty's litter too
Fruits and veggies, meat's OK
Your green bin's there for you!

- * Download the [My Waste App](#) for schedules and reminders and the helpful Waste Whiz search tool;
- * Only compostable plastic liners are acceptable;
- * Items won't be collected if they are frozen to the container: use vegetable oil to grease the inside;
- * When it snows, place your bin at street level on a flat area close to the curb (not on a snow bank);
- * Make your own newspaper liner! (instructions on the Region's website);
- * NO coffee pods or paper coffee cups;
- * Pet waste must be wrapped in paper – paper lunch bags are perfect for kitty litter;
