

EcoNugget

YES!! You can plant trees just by using the ECOSIA search engine

Ecosia is just like any other search engine, with one major difference: **at least 80%** of its advertising profits are used to plant trees around the world.

Did you know that Ecosia:

- Plants trees where they are needed the most.
- Has planted 116 million trees in 25 countries.
- Publishes monthly financial reports so you see exactly how income from your searches is spent.
- Produces twice as much electricity as is required for all Ecosia searches using renewable energy.
- Is privacy friendly. They don't sell your data to advertisers, have no 3rd party trackers, and anonymize all searches within one week.

Ready to give Ecosia a try? Go to: [ecosia.org](https://www.ecosia.org)
