

## EcoNugget

### Let's adopt green back-to-school habits!

#### **School Supplies:**

- Inventory what you can reuse. Buy less.
- Choose recycled paper and refillable pens and pencils where appropriate.
- Use dry-erase boards for sketches and lists.
- Donate the things you no longer need so others can use them.

#### **Clothing:**

- Take the time to inventory what is needed.
- Try the thrift store - often quicker, and may cost less than just the tax on new items. Again, donate what you no longer need.

#### **Food:**

- Make a firm decision to avoid single packaged purchased snacks.
- Keep leftovers in mind when packing lunches.
- Compost food waste, even if it means bringing it home to compost.
