Lower Your Water Bill

- **Establish your water use** and stay below the Region of Waterloo average of 148 litres per person per day.
- **Install a rain barrel** or large rainwater harvesting system in your garden
- **Check for leaks and drips** in pipes & toilets.
- **Take shorter showers** and **turn off the tap** when washing your hair & body, hands, face, brushing your teeth or shaving.
- **Keep a jug of water** in the fridge so you don't have to run the tap to get it cold.
- **Wear clothes** more than once.
- **Wash** only full loads of dishes & clothes.
- **Sweep** driveways, sidewalks and steps rather than hosing them off.
- **Water** plants in the early morning or late evening when temperatures are cooler, reducing loss through evaporation.
