

Becca Robinson

- Becca's current position with Reep Green Solutions is Landscape Designer, Green Infrastructure Programs
- For those not familiar with Reep Green Solutions, it is an environmental charity that helps & teaches individuals how to live sustainably.
- During her tenure with Reep, Becca has helped over 100 property owners in Kitchener to make landscape changes that are more resilient to climate change.
- She has led the design and construction of multiple green infrastructure projects on both residential and civic properties, as well as taught a series of workshops that help property owners develop their own sustainable landscape plans.
- Becca received her Masters in Landscape Architecture from the University of Michigan and has practiced in Detroit, Michigan and Edinburgh, Scotland prior to landing in Kitchener.
- Becca's presentation tonight is entitled: **Rain Smart Landscapes & Flood Resilient Communities.**
